

How to Use Synapse Tables

Bruce Ho

January 10, 2017

```
1_1 2.200000 bar 10 NA
2_1 3.141593 bar 20 NA
3_2 7.700000 moar 100 NA
4_2 8.800000 stuff 90 NA
5_2 9.900000 here 80 NA
```

The NAs may be replaced with other values:

```
table@values["new"]<-c("one", "two", "three", "four", "five", "six")
table<-synStore(table, retrieveData=TRUE)
```

```
table@values
```

```
      n      c      i      new
0_3 1.100000 foo 10 one
1_3 2.200000 bar 10 two
2_3 3.141593 bar 20 three
3_3 7.700000 moar 100 four3 3.14_3 8.800000 stuff 90 five
```
